Dear Athletic Training Alumni and Friends -

I am pleased to offer my support to the Athletic Training Education Program's current fund raising initiatives. My time as an athlete at the University of Wisconsin - Madison was full of many highlights - playing in the Kohl Center, many big wins, competing in NCAA tournaments, and a remarkable run to the Final Four.

Throughout that time, I always knew that the athletic training students and staff played an important role in the day-to-day care of our team. Looking back, I know that the accessibility to care and support we were provided was vital to our team's success. The athletic training students at UW Madison are learning essential skills to allow them to provide quality care to athletes at all levels of competition. While my playing days may be over, I hope that when my children compete in youth or high school sports they can be cared for by professionals who have graduated from programs like the UW-Madison.

Please join me in supporting the Athletic Training Education Program in any way that you can.

Sincerely,

ASSOCIATE ENGINEERING CORPORATION
